Winter Skin Care 61

Vitage's new Renewal range is ideal for winter-time, containing glycolic acid to brighten, resurface and smooth the skin, while lactic acid deeply hydrates and stimulates collagen. Options include this Antioxidant Treatment Mask which works to replenish moisture and strengthen the skin's protective barrier. Complexions will feel instantly firmer, soothed and rejuvenated.

Clients can customise their favourite winter skin care and body products with Crazy Angel's Personal-See Tanning Drops. In addition to delivering that summer glow, key active ingredients like hyaluronic acid and vitamin E work to keep skin soft and hydrated. Suitable for both face and body, the drops are vegan-friendly, 100% cruelty-free and do not contain any alcohol, parabens or mineral oil.

LPG endermologie's Cellu M6 Alliance facials use motorised micro-pulsations which work over the surface of the face and neck, stimulating cellular activity to provide visible results in the harshest of climates. Skin is soothingly exfoliated, radiance increases and volume is restored, with the appearance of wrinkles and fine lines also diminished. These results are achieved by the gentle massage technique boosting the production of collagen, elastin and hyaluronic acid within the skin's cells.
