

FACE & BODY  
endermologie® EXPERTISE  
NOW AVAILABLE AT  
**THE WELLNESS CLINIC,  
HARRODS**

Nested at the heart of the 4<sup>th</sup> floor of the world-renowned and iconic department store, the Wellness Clinic has set out to offer customers with the best of the aesthetic world with a holistic approach.

Alongside big names and need-to-know brands, and latest addition to the remarkable range of treatments, West London beauty addicts can now benefit from **endermologie® treatments**.

Thanks to latest generation of Cellu M6 Alliance® equipment, and a team of appointed endermologie® practitioners, Wellness Clinic customers can now benefit from a **360° customised slimming and anti-aging program**.

To meet the needs of demanding clientele, eager for made-to-measure care, a thorough face and body evaluation (lifestyle, specific areas to be targeted, skin type, goals...) is carried out by the LPG® expert. This will define a personalised endermologie® program, offering them with a 100% natural, non-invasive and non-aggressive slimming and anti-aging beauty solution to live in harmony with their bodies.

The natural synthesis of essential substances is awakened by the stimulation of the patented face endermologie® treatment head, giving the face its rested, radiant and youthful appearance back.

With its 3-in-1 action, body endermologie® simultaneously targets stubborn localised fat deposits, smoothes the orange-peel aspect and firms the skin to reshape and harmonise the figure.

*Behind the Cellu M6® ...  
... is LPG, a passionate French family affair. Created in 1986 by the visionary Louis-Paul Guitay, the company has since always had an activist mindset. "Beauty is not war", "True beauty does not lie" are just a few of the slogans the brand has sported over the years. The aim? Educating men and women around the world to steer them away from standardized and artificial beauty and leading them to seek a more responsible beauty.*

“ We are very proud to have been selected and to take part in this pioneering concept. Our brand's strong positioning, "Fight for Natural Beauty" is totally in line with the Wellness Clinic's approach. We are committed to providing Harrods customers with the very best, tailor-made and scientifically-proven slimming and anti-aging cares, to reveal their beauty potential ”

**Nelson Philippe,**  
Business Development and Strategy Director at LPG®
