## LPG launches new endermologie facials

**French skincare brand LPG has launched three new endermologie facials using its CELLU M6 Alliance technology as part of its 'no makeup' programme.**

According to LPG, the 'no makeup' programme aims to provide a luminous complexion without makeup for patients of all skin tones and ages.

There are three treatments included in the programme, the first is the detox facial, which aims to drain toxins to re-oxygenate the skin; the instant glow facial, to reactivate fibroblasts and exfoliate the skin; and the face, eyes and lips zone facial which stimulates the skin aiming to provide plumped lips and lifted eyelids.
